Family house in an excellent position

A family house with a restaurant for sale.

The building is a self-contained building where the ground floor has a restaurant-type hospitality facility with a main restaurant hall and a small hall, a kitchen with accompanying rooms, separate sanitary facilities for male and female guests, and a bar area. The outdoor open terrace is arranged for serving guests in the summer months with an uncovered and covered part. On the first floor, there is a larger residential unit, completely finished except for the open terraces, where only waterproofing has been installed.

We are happy to provide you with more information.
